GENERAL INSTRUCTIONS:

- This Addendum constitutes an integral part of the above-referenced Request for Proposals (RFP) and shall be read in conjunction with the RFP.
- Where inconsistent with the original RFP, or any subsequent Addendum, this Addendum shall govern.
- It is the responsibility of all Proposers to conform to this Addendum.
- Unless specifically changed herein, all other requirements, terms and conditions of the RFP remain in full force and effect and can only be modified if in writing.

PURPOSE OF THIS ADDENDUM:

The purpose of this Addendum is to answer questions raised by potential proposers.

PART I. CLARIFICATION OF THE RFP

- 1. Please describe the status of the creation of your new Chart of Accounts. If complete, has detailed mapping between old and new already been established?**

PDC Response:

A project is underway to identify the components and requirements needed to design a flexible chart of accounts that meets the current and understood future needs of PDC and also meet the legal and business requirements by September 15, 2008. Detailed mapping is not part of this project.

- 2. Please describe the differences between your existing GL structure and your future GL structure. Has a detailed mapping between old and new already been established?**

PDC Response:

Differences are not identified at this time. Detailed mapping has not been done.

- 3. Please describe the differences between your existing AC structure and your future AC structure. Has a detailed mapping between old and new already been established?**

PDC Response:

AC is not currently being used. No mapping has been done.

- 4. What particular business processes need improvements that are driving the above changes?**

PDC Response:

- a. Chart of accounts – Implement a new structure that is in better alignment with PDC’s organization structure, reporting requirements and accountability.
- b. Lawson Projects and Activities – Redeploy this module to track project costs and work in conjunction with the new chart of accounts. Establish a foundation to work in the future with the Lawson Budget and Professional Services Automation modules.

- 5. Please provide a record count of your production Lawson database (from the command line “count prod”). If possible, please provide this file as a text or CSV file.**

PDC Response: Please see the file “RFP_#08-03_Addendum1_ExhibitA.txt” at the following WWW address:

http://www.pdc.us/login/download_nologin.asp?i=847

- 6. In addition to the record count above, what is the approximate size of your production database (in Gigabytes)?**

PDC Response: See Figure One, “Disk Usage, Lawson Production Environment,” below.
