

Kenton Streetscape CAC Hard at Work

A 14-person citizen's advisory committee (CAC) is working with PDC, PDOT and consultants SERA Architects and Greenworks to make recommendations for streetscape improvements to Denver Avenue in downtown Kenton. Last week the CAC toured six different streetscapes in the Portland area (like this recently completed one along N. Killingsworth) to get ideas of what potential streetscape elements might be. The group then met to outline goals and criteria for a new streetscape. On December 6th, they will participate in a Design Workshop for Denver Ave.

PDC Interstate URA team members Carol Herzberg, Lené Hopson and Kate Deane are working on the streetscape project.
